Britannia's enhanced Risk Management Programme

An important part of the Club's enhanced risk management activities is the programme of technical seminars delivered by our Risk Managers to seafarers employed on Britannia entered ships and to shore-based superintendents. So far the seminars have been held in Manila and India – two significant manning centres. Further technical seminars will be held in Manila and Mumbai in mid-November and early December respectively. It is the intention to provide seminars open to all Members' seafarers in as many locations as practicable. To this end we require information from Members on their current manning arrangements so that we can identify those geographical locations where seminars might be held in the future.

We therefore attach a brief questionnaire regarding crewing arrangements, which is being sent to all Britannia Members. Would you please provide as much information as possible and return by fax (+44(0)20 7403 3942) or e-mail to tduncan@triley.co.uk, marked for the attention of Tina Duncan.

The feedback from those officers who have attended the technical seminars has been very positive. With the information provided by Members on the attached questionnaire we will be able to offer this risk management initiative to a much wider Britannia audience.
